*New Zealand Stainless Steel Development Association*

**Project Summary:** - Brief description of the project or innovation, the challenges to be overcome, and what was done to achieve the desired result.

**Design & Specification:** - Please explain the innovations and best practice principles utilized in the design and specification phase, and the impact on the end result. This may include but not be restricted to Life Cycle Costing assessments, Environmental evaluations, etc.

*New Zealand Stainless Steel Development Association*

**Fabrication / Manufacture:** - Please explain the innovative techniques and best practice principles utilized in the fabrication / manufacturing phase, and its effect on the delivery and performance of the project.

**Installation & Commissioning:** - Please outline the innovative techniques and best practice principles used during the installation and commissioning stage, and its effect on the delivery and performance of the project.

**Other Comments: -**

**Conditions Of Entry:**

1. The entry form is completed and signed.
2. The product, project, innovation, etc, was completed and ready for use between August 2013 and July 2015.
3. The stainless steel referred to in this entry was fabricated or processed in New Zealand.
4. A minimum of five high quality A4 sized photos are included with the entry.
5. Relevant drawings, plans, and assessments are included (for judging purposes).
6. All photos, the entry form and supportive explanations are available electronically.
7. The nominated company is a member of NZSSDA at the time the awards are presented.
8. The applicant agrees that the NZSSDA have the right to publish images and details submitted with this entry for the purposes of promoting the NZ Stainless Steel Industry, with appropriate acknowledgements.
